

Hip Conditions in the Young Adult: A Virtual Course

August 29, 2020

Keynote Speaker
Mr. AJ Andrade
MSc, FRCS (Tr&Orth)
Circle Reading Hospital, UK

Location: Online

Course Chair

Dr. Olufemi Ayeni
MD, PhD, FRCSC
Professor
McMaster University

Course Fees – Free!

This course is open to physicians (Incl. chiropractors, naturopaths, etc.), allied health professionals (Incl. physiotherapists, occupational therapists, etc.), and trainees (Incl. fellows, residents, medical students, etc.)

Learning Objectives

- Gain a comprehensive understanding of hip imaging and diagnostic techniques
- Familiarization with strategies that enable the development of clinical practice that involves the management of hip conditions
- Develop an understanding of appropriate use of non-operative interventions and strategies from allied health professionals
- Acquire an understanding of how to formulate a management plan for hip disorders and further knowledge in hip arthroscopy and other surgical procedures

If interested in attending, please email Nicole Simunovic with your full name and professional contact information at simunon@mcmaster.ca. Login information will be sent via email closer to the course date.
