23. ISHA Madrid Report
Welcome to spring edition of ISHA NEWS 2020. We are proud to announce our society is celebrating its 12th year. This is our first spring edition of the newsletter and the format will be a much shorter one. The July edition of ISHA NEWS will continue to take the original format you are used to. I would like to express my thanks to the editorial sub-committee Vikas Khanjuja, Addenbrooke’s, Cambridge University Hospitals NHS Trust, UK and Associate Professor Marcelo Queiroz from Santa Casa de São Paulo Medical School, São Paulo, Brazil. In addition, a special welcome to our newest editorial sub-committee member Jonathan Hutt, University College London. ISHA would like to thanks to all the contributors of this year’s spring edition of the newsletter.

Over the last three decades there has been a significant increase in joint preservation procedures. In particular, for dysplasia of the hip as our ability to assess, investigate and treat such patients with arthroscopic and more refined open techniques has improved. Although osteotomy for moderate to severe dysplasia is well established, the role of osteotomy and/or arthroscopy in mild dysplasia remains somewhat controversial. In this newsletter, we hear from Luthfur Rahman and Johan Witt on “Should we address bony deformity? – The role of Periacetabular Osteotomy”. The second part of this article is written by Ajay C. Lall, Hari Ankem and Benjamin G. Domb on “The Role of Hip Arthroscopy in hip dysplasia”.

Over the last few years, ISHA has been providing Cadaveric Courses. More recently, ISHA have provided some Simulator Courses to its members during its annual meeting. We hear more from Dr. sc. tech. Martina Vitz and Dr. med. Nicolas Bonin about the hip simulators. ISHA looks forward to welcoming your all to this year’s ISHA Annual Scientific Meeting in Ottowa, Cana- da on October 1st - 3rd, host- ed by Dr Paul E. Beaulé and Scien- tific Chairman, Dr John Clohisy. The theme this year will be “The Science of Hip Preservation”.

Warm regards

Parminder J Singh

MBBS, MRCS, FRCS (Tr&Orth), MS, FRACS
Editorial Committee Chairman of ISHA - The Hip Preservation Society
Greetings from the ISHA President

Dear ISHA Members, Friends and Colleagues:

The New Year 2020 has already started – I hope it finds all of you happy and healthy!

We have had a brilliant 2019. ISHA has grown to be the premier international hip preservation society with currently more than 450 members in good standing. Our 2019 Annual Scientific Meeting (ASM) in Madrid was attended by over 680 international delegates, being the most successful meeting in the history of ISHA. We highly acknowledge the great work of the local hosts Oliver Marín-Peña and Luis Pérez Carro, the Programme Chair Damian Griffin and the congress organiser Open Audience, particularly Caroline MacKenzie.

All the presentations, abstracts, and e-posters have now been uploaded and are available on the member area of our website (ISHA Academy) https://academy.ishasoc.net/isha. Please take a moment to remember and renew the wonderful atmosphere of Madrid!

With the increasing support of our Corporate Sponsors ISHA was able to increase its activities in educational and research projects such as multicenter studies, the ongoing DELPHI consensus studies and our international travelling fellowships. The DELPHI studies have been accepted for publication. The ISHA travelling fellowship is stimulating a lot of interest from our members with numerous applications for the upcoming fellowship in 2020. What a great opportunity for our younger colleagues to be inspired by travelling around the world and visiting our highly experienced arthroscopic and open hip preservation surgeons! Our special thanks for the great support go to our diamond level sponsors Arthrex, ConMed and Smith & Nephew.

Our next ASM will take place in Ottawa, Canada in October 1-3, 2020. Indian summer is the perfect season of the year to spend some time outside the conference to explore Canada. Together with our hosts, Paul Beaulé and John Clohisy, we are looking forward to meeting you all again at our AGM. Further information on our meeting, abstract submission, the venue, travel and accommodation is already available at https://ishaconference.com/2020-isha-annual-meeting/.

Since our ASM in Madrid, the ISHA Executive Board has been working intensively with a focus on the structure and bylaws of the Committees and the role of Regional Meetings as an addition to our Annual Scientific Meetings. Our goals are to encourage further involvement of our members, improve the education in hip preservation, increase the scientific and registry work within the society and to extend our collaboration with corporate partners. New committees such as the Academy Committee and the Registry Committee were created, while other committees were renamed, and some committees were charged with new functions. Please find further information on that in the following pages of this newsletter and have a look at our updated website at https://ishasoc.net/isha-committees/.

We hope this will spark your interest and will spur you on to get further involved with ISHA and our committees. Please do contact the Executive Office to notify us of your interest.

ISHA is planning to support and help with the organisation of Regional Meetings. Our ASMs take place only every third year in Europe, North America and other parts of the world. In order to provide a more continuous education in hip preservation particularly in places outside Europe and North America, we encourage our members to initiate instructional Regional Meetings. Please find below further information on this project. Do contact us if you have an interest in organising such events.

My personal thanks go to Tony Andrade, Chuck Cakic, Rodrigo Mardones, Marc Philippon, Hassan Sadri and Allston Stubbs for their continuous and hard work in the Executive Board, and, last not least, to our society’s heart, Anna Lozinska-Brown, for her fantastic work in all aspects as our Executive Director.

Michael Dienst

Our next ASM will take place in Ottawa, Canada in October 1-3, 2020. Indian summer is the perfect season of the year to spend some time outside the conference to explore Canada.
ISHA Annual Scientific Meeting 2020
1 - 3 October, Ottawa, Canada

Host Chair
Dr Paul E. Beaulé

Programme Chair
Dr John Clohisy

Program Theme
The Science of Hip Preservation

Key Topics
- Femoro-acetabular impingements (FAI)
- Instability (dysplasia)
- Labrum (repair, biology, biomechanics)
- Hyaline cartilage (repair, biology, biomechanics)
- Capsule (repair, biology, biomechanics)
- Arthroplasty in young and after preservation
- Extra-articular conditions
- Rehabilitation
- Hip-spine interplay/conditions
- Treatment complications
- Outcome measures
- Osteonecrosis and biologics

Venue
Level 2, The Shaw Centre, Ottawa, Canada

Important Dates
16 December 2019 Call for abstracts open
January 2020 Call for ICL proposals
1 March 2020 Registration and award applications open
15 April 2020 Abstract submission deadline
30 April 2020 Award application deadline
20 July 2020 End of early registration
17 September 2020 End of standard registration
1 - 3 October 2020 ISHA 2020

We’d Love To Hear From You!

General Board (Board Of Directors)
Governance of the Society will be provided by the ISHA BOARD OF DIRECTORS (General Board). The General Board comprises an Executive Committee of 7 Members (President, Immediate Past President, 2nd Past President, President Elect, Vice President, Treasurer, General Secretary) and additional General Council Members.

Executive Board
Together responsible for governance; chairing of Executive Board meetings, annual business meetings and General board meetings (in accordance with the constitution); agenda preparation for Executive Board meetings, annual business meeting and General Board meetings; spokespersons for the society if required; manufacturer liaison; insurer liaison.

Past President Council
Provides counsel to the board and to the society.

Isha Executive Director
Appointed by the Executive Board to manage the day to day affairs of the society. To work principally with the President, Treasurer, and Membership Chair and liaise with other members and industry representatives as necessary. To co-ordinate the management of the Annual Scientific Meeting.

General Secretary
With Executive Director, preparation of minutes, logistic arrangements for Executive Board meetings, annual business meeting and General Board meetings (but not Annual Scientific Meetings); arranging for adequate insurance for Executive Board activities; certification of ordinary members at annual meeting (if required); appointment of administrative support staff. Review of bylaws; control the legality of the elections and board constitution and board members status (year of election and end of term). Recorder of minutes and voting at the annual business meeting. Maintains electronic historical records of society board meetings and annual business meetings.

Isha Foundation Board
Essential role of safeguarding ISHA’s financials. “Financial arm” of ISHA. Ensures that ISHA is functioning as untaxed society and that ISHA can receive donations.

Membership Committee
Establishing validity of membership applications; membership criteria; membership renewal advice; expanding the Ordinary and Associate Membership; identifying individuals for Emeritus and Honorary Membership; collection of subscriptions

Education Committee
Identification and coordination of educational courses besides the ASM. Course recognition. Other forms of continuing professional development. Selection and oversight of the Fellows selected for the ISHA Fellowship Program.

Task Forces
1. Editorial: Responsibility for ISHA publications; contact to JHPS; production of patient information literature; developing and maintaining universal documentation; accuracy of press releases
2. Fellowship: Evaluation and selection of candidates for the traveling fellowships
3. Annual reports: Preparation of the ISHA newsletters, short version January; extended version July.

Technology & Communication Committee

Research Committee
Assisting and/or initiating areas of research in hip arthroscopy; assisting with research grant applications where appropriate; development of multicenter research projects.

Regional Societies Committee
Overview, care and support of regional activities & meetings, connection to regional/national societies, including LATAM, ASIA and other in the future.

Industry Liaison Committee
With Executive Board and Executive Secretary, serves as the primary point of contact with industry representatives and industry corporate members. Responsible for semiannual contact with industry representatives and industry corporate members typically at the ISHA Annual Meeting and midyear conference such as ESSKA and AAOS, communicates industry feedback to Executive Board regarding ISHA calendar, annual meeting locations, annual meeting evaluations, and educational objectives.

Academy Module Committee
Support & care of the academy module of the ISHA website, seeking industry sponsorship etc.

Isha Registry Committee
Development of the ISHA registry, rule out national requirements, industry funding.

Physiotherapy Committee
Promoting the society to physiotherapists worldwide and encouraging membership expansion. Preparation of physiotherapy annual scientific meeting program.
